TITLE Academic Program Inventory, 1991. Alabama's Public and Private Colleges and Universities.

INSTITUTION Alabama State Commission on Higher Education, Montgomery.

PUB DATE 91

NOTE 308p.

PUB TYPE Reports - Descriptive (141)

EDRS PRICE MF01/PC13 Plus Postage.

DESCRIPTORS Accreditation (Institutions); Accrediting Agencies; Classification; *College Curriculum; Colleges; *Courses; Degrees (Academic); Higher Education; *Intellectual Disciplines; Postsecondary Education; Public Colleges; Public Schools; State Programs; Universities

IDENTIFIERS *Alabama

ABSTRACT

This document consists of a combination of volume 1 (Public Institutions) and volume 2 (Private Institutions) of an inventory of Alabama's higher education academic programs for 1991; it provides a list of all instructional programs offered in the state's four-year colleges and universities and approved by the Alabama Commission on Higher Education. Each inventory is organized into two sections. The first section lists programs by field of study, and the second section lists programs by institution. Each entry includes the program title; degree(s) offered; accreditation, if any; and the inactive date, if appropriate. Appendices list all Alabama four-year colleges and universities (and their abbreviations); degree titles (and abbreviations); and accrediting agencies (only those recognized by the Council on Postsecondary Accreditation and the U.S. Department of Education). Programs in the guide are classified according to the standard taxonomy called A Classification of Instructional Programs (CIP) developed by the National Center for Education Statistics. (GLR)

DESCRIPTION OF AGENCY FUNCTIONS

Created by the Legislature in 1969, the Commission is charged with the responsibility of coordinating public higher education in Alabama.

The Commission is devoted to representing the citizens' higher-education interests to the Governor and Legislature, while at the same time faithfully presenting the needs of the colleges and universities to the state.

In carrying out its responsibilities to approve new programs, review existing programs, formulate an annual budget recommendation, coordinate student financial aid programs and chart long-range goals for higher education, the Commission matches the strengths of the 57 institutions with the state's available financial resources.

To ensure the decisions are made with an awareness of the educational and financial consequences, the Alabama Commission on Higher Education provides data; responds to inquiries; conducts studies, and offers other assistance on higher education matters to the Governor, the Legislature, the institutions and the citizens in Alabama.

The Commission is composed of 12 members, 10 appointed by the Governor, one by the Lieutenant Governor and one by the Speaker of the House. All Commissioners serve staggered nine-year terms.

FOREWORD

The 1991 edition of the Academic Program Inventory consists of three volumes. Volume I includes public four-year colleges and universities and provides a list of all instructional programs approved by the Alabama Commission on Higher Education as of August 30, 1991. Volume II includes the programs offered by the private colleges and universities in the State. Volume III provides a list all programs offered by the community, junior, and technical colleges which were approved by the Commission as of August 30, 1991.

Volume I is organized into two sections. Section A lists programs by field of study, and Section B lists programs by institution. To conserve space, institutional names are abbreviated in Section B. For an explanation of the abbreviations, refer to Appendix A.

Programs in the Inventory are classified according to a standard taxonomy, A Classification of Instructional Programs (CIP), developed by the National Center for Education Statistics (NCES). The CIP taxonomy facilitates a comparison of information not only among institutions in the State but also nationwide. A list of program categories used in the CIP taxonomy appears on pages xii and xiii. For a detailed description of the CIP taxonomy, consult the following publication: Gerald S. Malitz, A Classification of Instructional Programs (CIP), Washington, D.C.: Center for Education Statistics, U.S. Government Printing Office, (1985).

Each inventory entry reflects the program title, degree(s) offered, accreditation if any, and date inactive if appropriate. Since the Inventory includes approximately 150 separate and unique degree titles, abbreviations are used for the degrees. Appendix B provides a list of all degree titles and abbreviations.

The accrediting agencies listed in the Inventory include only those agencies recognized by the Council on Postsecondary Accreditation (COPA) and the U.S. Department of Education (USDE). Space limitations required that the names of accrediting agencies be abbreviated. Appendix C gives a list of all accrediting agencies recognized by COPA and/or USDE and abbreviations.

If a program is inactive, a date will appear in the "Date Inactive" column which indicates the date this inactive status was recognized by the Commission. Institutions have five years from the inactive date to reinstate a program, provided evidence is offered that the program has adequate resources and student demand to support reinstatement. If a program has not been reinstated within five years after being placed on inactive status, it will be removed from the Inventory. Once an inactive program has been removed from the Inventory, it cannot be added back to the Inventory without undergoing the normal new program review process.

Teacher certification programs (B, A, AA) as approved by the State Department of Education are not listed in the Inventory. For a current inventory of those programs, consult Approved Teacher Education Programs which is published annually by the Alabama State Department of Education.

DESCRIPTION OF AGENCY FUNCTIONS

Created by the Legislature in 1969, the Commission is charged with the responsibility of coordinating public higher education in Alabama.

The Commission is devoted to representing the citizens' higher-education interests to the Governor and Legislature, while at the same time faithfully presenting the needs of the colleges and universities to the state.

In carrying out its responsibilities to approve new programs, review existing programs, formulate an annual budget recommendation, coordinate student financial aid programs and chart long-range goals for higher education, the Commission matches the strengths of the 57 institutions with the state's available financial resources.

To ensure the decisions are made with an awareness of the educational and financial consequences, the Alabama Commission on Higher Education provides data; responds to inquiries; conducts studies, and offers other assistance on higher education matters to the Governor, the Legislature, the institutions and the citizens in Alabama.

The Commission is composed of 12 members, 10 appointed by the Governor, one by the Lieutenant Governor and one by the Speaker of the House. All Commissioners serve staggered nine-year terms.

FOREWORD

The 1991 edition of the Academic Program Inventory consists of three volumes. Volume I includes public four-year colleges and universities and provides a list of all instructional programs approved by the Alabama Commission on Higher Education as of August 30, 1991. Volume II includes the programs offered by the private colleges and universities in the State. Volume III provides a list of all programs offered by the community, junior, and technical colleges which were approved by the Commission as of August 30, 1991.

Like Volumes I and III, Volume II is organized into two sections. Section A lists programs by field of study, and Section B lists programs by institution. To conserve space, institutional names are abbreviated in Section B. In addition, Faulkner University has some programs that are offered only at branch campuses; these are indicated by letter abbreviations following the program titles. Faulkner's programs without this annotation are offered only at the main campus. For an explanation of the institutional and branch campus abbreviations, refer to Appendix A.

Programs in the Inventory are classified according to a standard taxonomy, A Classification of Instructional Programs (CIP), developed by the National Center for Education Statistics (NCES). The CIP taxonomy facilitates a comparison of information not only among institutions in the State but also nationwide. A list of

program categories used in the CIP taxonomy appears on pages xii to xiii. For a detailed description of the CIP taxonomy, consult the following publication: Gerald S. Malitz, A Classification of Instructional Programs (CIP), Washington, D.C.: Center for Education Statistics, U.S. Government Printing Office, (1985).

Each inventory entry reflects the program title, degree(s) offered, accreditation if any, and date inactive if appropriate. Since the Inventory for private colleges and universities includes 36 separate and unique degree titles, abbreviations are used for the degrees. Appendix B provides a list of all degree titles and abbreviations in Volume II.

The accrediting agencies listed in the Inventory include only those agencies recognized by the Council on Postsecondary Accreditation (COPA) and the U.S. Department of Education (USDE). Space limitations required that the names of accrediting agencies be abbreviated. Appendix C gives a list of all accrediting agencies recognized by COPA and/or USDE and abbreviations.

Teacher certification programs (B, A, AA) as approved by the State Department of Education are not listed in the Inventory. For a current inventory of those programs, consult Approved Teacher Education Programs which is published annually by the Alabama State Department of Education.
